ProStor Systems' InfiniVault Named Finalist in TechTarget Products of the Year Awards Competition

ProStor Archive Solution Listed in Backup Hardware Category

BOULDER, Colo. – Jan. 30, 2008 – ProStor Systems, a leading developer of removable disk storage solutions for data protection and archive applications, today announced that its InfiniVault™ archive appliance has been named a finalist in the “Backup Hardware” category of the 2007 Storage Products of the Year awards, as selected by judges and editors of SearchStorage.com and *Storage* magazine.

The annual awards recognize innovative storage technologies in five product categories, with ProStor being among eight companies included for recognition in its category. Winners will be announced Feb. 5, 2008.

“With more than 200 new storage-related products submitted for consideration to TechTarget’s ‘Products of the Year’ competition, we are pleased to be among the finalists,” said Steve Georgis, CEO and president of ProStor Systems. “We are especially proud of the recognition that our InfiniVault has received this year among industry analysts, media and customers alike. Being named ‘Product of the Year’ would be an especially gratifying honor for the world’s first removable disk archive appliance using proven RDX® removable disk technology.”

InfiniVault named Product of the Year finalist

ProStor's InfiniVault provides users with a digital archive and compliance solution that reduces storage costs by combining long-term data retention, regulatory compliance, automated data archiving and disaster recovery protection in a single, simple-to-deploy and easy-to-use appliance. By leveraging RDX removable disk technology, ProStor has created the world's first archive system that combines the performance and rapid retrieval of conventional hard disk drives with the unlimited capacity scalability and disaster recovery protection of removable media, but with a system design that is far more reliable than tape and much lower cost than fixed-disk archive systems.

About ProStor Systems

[ProStor Systems](#) is the leader in enterprise-class removable disk storage for data backup and long-term archive. Designed to replace tape, RDX removable disk products provide the performance and reliability of disk while preserving the removability and archival benefits of tape. ProStor has introduced InfiniVault, the world's first removable disk archive system. Targeted at small and mid-sized enterprises with limited budgets, InfiniVault provides low-cost, long-term data preservation in an intelligent regulatory-compliant appliance based on RDX technology. In 2007, ProStor was recently named to the Byte and Switch Top 10 Startups to Watch List.
